Professional Experience

APR24 -
NOV24

BP FLOW – Front-end Web Developer

- Development of a SaaS application with a scalable and efficient frontend architecture using React and TypeScript.
- Collaboration within an Agile team, working closely with the product owner, backend developers, and designers to ensure cohesive product delivery and a streamlined user experience.
- Design and development of the BP Flow website, utilizing React and Tailwind CSS for a modern and responsive design optimized for mobile, desktop, and tablet.
- Implementation of micro frontends architecture to modularize features, allowing independent deployment and better scalability of the codebase.
- Extensive use of CI/CD pipelines to automate testing and deployment, ensuring consistent and rapid delivery of new features.
- Optimization of application performance, focusing on load time reduction and ensuring smooth interactions for the user. Debugged complex frontend issues to maintain a seamless experience.
- Advanced Git/GitHub versioning practices and terminal command usage, contributing to efficient team collaboration and code quality control.

SEP23 -
APR24

BeCode – Web Developer training

- Frontend development for multiple complex projects, focusing on clean, efficient code and optimal user experience.
- Use of several development frameworks, including React, Tailwind, Bootstrap, Next.js, and TypeScript, for a versatile skill set in frontend technologies.
- API integration across various websites, with an emphasis on data security and performance optimization.
- Getflix Project: Developed a fully responsive streaming platform using React, Tailwind CSS, and TypeScript, incorporating advanced search functionality and a user-friendly interface. Integrated multiple APIs to enable seamless content delivery across devices.
- Experience with micro frontends to separate different parts of the application for easier maintenance and scalability.
- Applied CI/CD practices to streamline deployments and maintain high code quality.
- Strengthened problem-solving and debugging skills, particularly in handling asynchronous data and API issues.

FEB23 -
MAY23

ASBL RYD – Communication Officer and Assistant Project Manager

- Design for communication with Adobe suite (Photoshop, InDesign, Illustrator, Premiere Pro) and Canva.
- Creation of visually appealing content for marketing department
- Community management on social media platforms

OCT19-
JAN20

ASBL Tremplins (Internship) – Assistant Project Manager

- Acquired autonomy and adherence to deadlines.
- Created social media posts to enhance the visibility of the non-profit organization.
